

UIDAI DATA HACKATHON 2026

Phase-1: Problem Definition & Data Strategy

TEAM ID & PARTICIPANT DETAILS

Problem Statement

Defining the core bottleneck in Aadhaar authentication/ecosystem.

KEY OBJECTIVES & SUMMARY

MAIN CONTENT AREA / DIAGRAMS

CITATIONS & REFERENCES

Dataset Metadata

Evidence of Data Integrity, Security Proofs, and PII Masking.

KEY OBJECTIVES & SUMMARY

MAIN CONTENT AREA / DIAGRAMS

CITATIONS & REFERENCES

Data Pre-processing

Methodology: Raw Data ingestion to Pandas integration.

KEY OBJECTIVES & SUMMARY

MAIN CONTENT AREA / DIAGRAMS

CITATIONS & REFERENCES

Logical Framework (I)

Core Logic, Mathematical Formulas, and Model Logic.

```
# Input source code / Jupyter Notebook snippets here...  
  
# Strictly adhering to UIDAI PII masking protocols...
```

Logical Framework (II)

Originality justification and Algorithm structure.

```
# Input source code / Jupyter Notebook snippets here...  
  
# Strictly adhering to UIDAI PII masking protocols...
```

Logical Framework (III)

Parameter tuning and specific constraints.

```
# Input source code / Jupyter Notebook snippets here...  
  
# Strictly adhering to UIDAI PII masking protocols...
```

Statistical Analysis: Univariate

Distribution analysis of individual identity variables.

INTERPRETATION (Judges View)

STATISTICAL SIGNIFICANCE

Statistical Analysis: Bivariate

Correlation studies between independent/dependent factors.

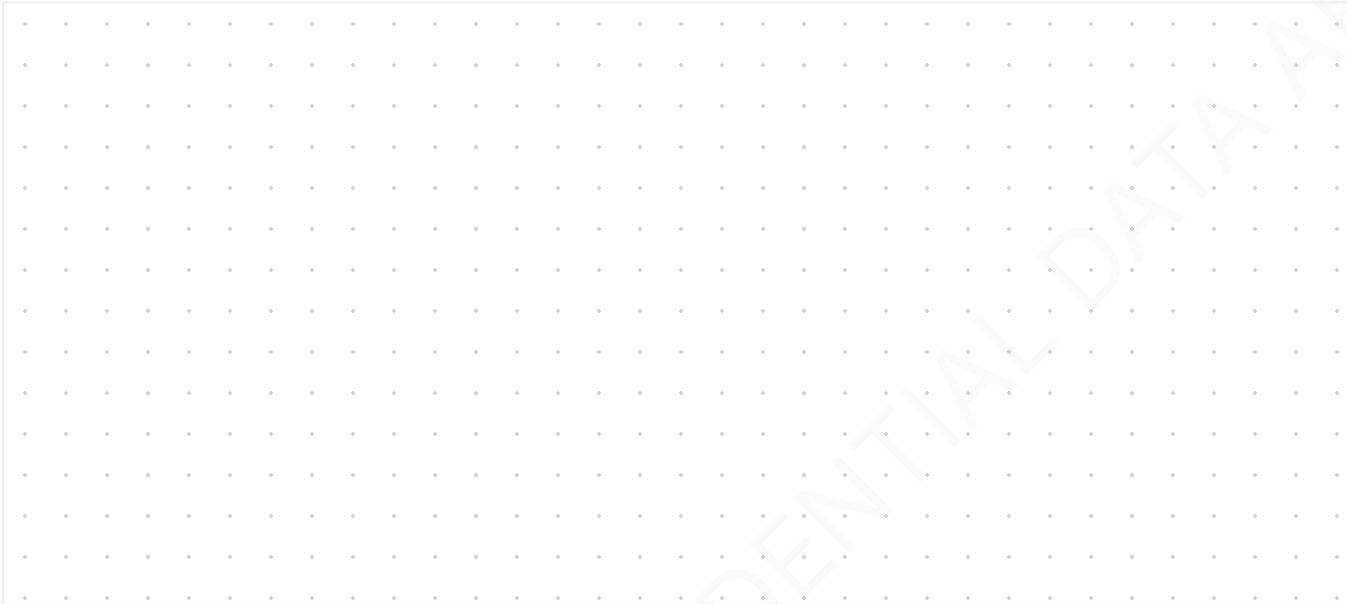

INTERPRETATION (Judges View)

STATISTICAL SIGNIFICANCE

Statistical Analysis: Trivariate

Complex interactions and multidimensional patterns.

INTERPRETATION (Judges View)

STATISTICAL SIGNIFICANCE

Visual Communication (I)

Graphical representation of core findings.

Visual Communication (II)

Heatmaps and spatial data distributions.

Complete Source Code (I)

Mandatory Python/Jupyter verification.

```
# Input source code / Jupyter Notebook snippets here...  
  
# Strictly adhering to UIDAI PII masking protocols...
```

Complete Source Code (II)

Backend integration logic.

```
# Input source code / Jupyter Notebook snippets here...  
  
# Strictly adhering to UIDAI PII masking protocols...
```

Projected Impact

Social, Economic, and Technical ROI for the UIDAI ecosystem.
